As you are aware, the Railroad Commission is aggressively enforcing compliance for all oil and gas operations. With our knowledge of the industry and the state of Texas, **Surety Placement Services** has been successful in providing a bond for 90% of our requests. Release your Irrevocable Letter of Credit (ILOC) and replace it with a bond or replace your existing bond for a lower rate with better terms. This bond is cheaper, easier and will free up your credit while putting the control back in your hands.
